

Greenhouse Gas Verification Statement

The inventory of Greenhouse Gas emissions in year 2021 of

Lien Hwa Property Development Corp.

No. 209, Sec. 1, Nangang Rd., Nangang Dist.,
Taipei City 115, Taiwan (R.O.C.)

has been verified in accordance with ISO 14064-3:2006 as
meeting the requirements of

ISO 14064-1:2018

Direct emissions
252.2259 tonnes of CO₂e

Indirect emissions
333.8303 tonnes of CO₂e

Direct emissions and indirect emissions
586.056 tonnes of CO₂e

Authorized by

Stephen Pao

Knowledge Deputy General Manager

Date: 16 August 2022

Version 1

TGP56A-15-6 2207
SGS Taiwan Ltd.

No. 136-1, Wu Kung Road, New Taipei Industrial Park, Wu Ku District,
New Taipei City 24803, Taiwan

Statement TW22/00382GG, continued

The emission of each category is described as below: Unit: tonnes of CO₂e

Reporting Boundaries			GHG Emissions
Inventory categories	Description		
Direct emissions		This direct GHG emissions are the sum of owned or controlled by the organization within the organization.	252.2259
Indirect emissions	Imported energy	Electricity	267.6221
	Transportation	Business Travel	1.9681
	Products used by an organization	<ul style="list-style-type: none"> Fuel and Energy-Related Activities Not Included in Category 1 or Category 2 Waste Generated in Operations Purchased Goods and Services-tap water 	64.2401
	Associated with the use of products from the organization	not disclosure	-
	Other sources	not disclosure	-
Direct emissions and indirect emissions			586.056

SGS has been contracted by csrCommunity International Limited (hereinafter referred to as “CIDCSR”), 27F-1, No. 99, Sec 2, Dunhua S Rd, Da'an Dist, Taipei City, Taiwan for the verification of direct and indirect Greenhouse Gas emissions in accordance with

ISO 14064-3:2006

as provided by Lien Hwa Property Development Corp. (hereinafter referred to as “LHPC”), No. 209, Sec. 1, Nangang Rd., Nangang Dist., Taipei City 115, Taiwan (R.O.C.), in the GHG Assertion in the form of GHG report covering GHG emissions of the period 01 January 2021 to 31 December 2021.

Roles and responsibilities

The management of LHPC is responsible for the organization’s GHG information system, the development and maintenance of records and reporting procedures in accordance with that system, including the calculation and determination of GHG emissions information and the reported GHG emissions.

It is SGS’s responsibility to express an independent GHG verification opinion on the GHG emissions as provided in the GHG Assertion for the period 01 January 2021 to 31 December 2021.

SGS conducted a third-party verification of the provided GHG assertion against the principles of ISO 14064-1:2018, ISO 14064-3:2006 in the period 04 July 2022 to 29 July 2022. The verification was based on the verification scope, objectives and criteria as agreed between CIDCSR and SGS on 15 March 2022.

Level of Assurance

The level of assurance for category 1 and category 2 agreed is that of reasonable assurance. Category 3 till category 6 agreed is that of limited assurance.

Scope

CIDCSR has commissioned an independent verification by SGS Taiwan of reported GHG emissions of LHPC arising from Lien Hwa Property Development Corp.(LHPC) is responsible for managing and developing company-owned real estates across Taiwan and provides professional services to meet customer demands, including real estate leasing, assets enablement and value-added developments activities, to establish conformance with ISO 14064:2018 principles within the scope of the verification as outlined below.

Statement TW22/00382GG, continued

This engagement covers verification of emission from anthropogenic sources of greenhouse gases included within the organization's boundary and is based on ISO 14064-3:2006.

- Title or description activities: GHG verification for LHPC in year 2021
- Location/boundary of the activities:
 - No. 209, Sec. 1, Nangang Rd., Nangang Dist., Taipei City 115, Taiwan (R.O.C.)
 - No. 12, Fufeng S. Rd., Yangmei Dist., Taoyuan City, 326, Taiwan(R.O.C.)
- Physical infrastructure, activities, technologies and processes of the organization: Lien Hwa Property Development Corp. (LHPC) is responsible for managing and developing company-owned real estates across Taiwan and provides professional services to meet customer demands, including real estate leasing, assets enablement and value-added developments.
- GHG sources, sinks and/or reservoirs included: Sources as presented in the inventory spreadsheet provided by LHPC.
- Types of GHGs included: CO₂, CH₄, N₂O, HFCs, PFCs, SF₆, NF₃
- The IPCC 2021 AR6 GWP values are applied in this inventory.
- Emission factor:
 - Direct emissions: Greenhouse Gas Emission Factor Table (6.0.4), EPA.
 - Indirect emissions:
 - Electricity emission factor is 0.509 kgCO₂e/kwh (Announced by Bureau of Energy, Ministry of Economic Affairs in 2022).
 - The secondary database has Carbon Footprint Information Platform.
- Directed actions: NA
- GHG information for the following period was verified: 01 January 2021 to 31 December 2021
- The version of inventory sheet: 1110730
- The version of GHG assertion: 202207
- Intended user of the verification statement: Private

Objective

The purposes of this verification exercise are, by review of objective evidence, to independently review:

- Whether the GHG emissions are as declared by the organization's GHG assertion
- The data reported are accurate, complete, consistent, transparent and free of material error or omission.

Statement TW22/00382GG, continued

Criteria

Criteria against which the verification assessment is undertaken are the principles of ISO 14064-1:2018.

Materiality

The materiality required of the verification was considered by SGS to 5%, based on the needs of the intended user of the GHG Assertion.

Conclusion

LHPC provided the GHG assertion based on the requirements of ISO 14064-1: 2018. The GHG information for the period 01 January 2021 to 31 December 2021 disclosing emissions of 586.056 metric tonnes of CO₂ equivalent and 0.0000 metric tonnes of direct CO₂ emissions from the combustion of biomass are verified by SGS to a reasonable level of assurance, consistent with the agreed verification scope, objectives and criteria.

The emission of each category is described as below:

Unit: tonnes of CO₂e

Reporting Boundaries			GHG Emissions
Inventory categories	Description		
Direct emissions	This direct GHG emissions are the sum of owned or controlled by the organization within the organization.		252.2259
Indirect emissions	Imported energy	Electricity	267.6221
	Transportation	Business Travel	1.9681
	Products used by an organization	<ul style="list-style-type: none"> Fuel and Energy-Related Activities Not Included in Category 1 or Category 2 Waste Generated in Operations Purchased Goods and Services-tap water 	64.2401
	Associated with the use of products from the organization	not disclosure	-
	Other sources	not disclosure	-
Direct emissions and indirect emissions			586.056

SGS's approach is risk-based, drawing on an understanding of the risks associated with reporting GHG emissions information and the controls in place to mitigate these. Our examination includes assessment, on a test basis, of evidence relevant to the amounts and disclosures in relation to the organization's reported GHG emissions.

We planned and performed our work to obtain the information, explanations, and evidence that we considered necessary to provide a reasonable level of assurance that the GHG emissions of category 1 and category 2, and limited level of assurance of category 3 till category 6 for the period 01 January 2021 to 31 December 2021 are fairly stated.

We conducted our verification with regard to the GHG assertion of LHPC which included assessment of GHG information system, monitoring and reporting plan/protocol. This assessment included the collection of evidence supporting the reported data, and checking whether the provisions of the protocol reference, were consistently and appropriately applied.

In SGS's opinion the presented GHG assertion

- is materially correct and is a fair representation of the GHG data and information, and
- is prepared in accordance with ISO14064-1:2018 on GHG quantification, monitoring and reporting.

Confidentiality

The reports and attachments may contain relevantly confidential information of the clients. In addition to being submitted as governmental application or certification documents, the reports and attachments are not allowed to be edited, duplicated, or published without the clients' agreement in written form.

Avoidance of Conflict of Interest

The reports and attachments are completely complied with the standards and procedures that related authorities established. The reports and attachments of auditing process are conduct with fairness and honesty. If not, the auditing institution not only has to bear the relevant compensation duties, but also to receive legal charge and punishment.

This statement shall be interpreted with the GHG assertion of LHPC as a whole.

Statement TW22/00382GG, continued

Verifier Group

Above statements coincide with auditing process with fairness and impartiality and aim at the emission of year 2021 of clients.
